Re: Welfare and Pension Contributions

Dear Employer:

The Trustees of the Suburban Teamsters of Northern Illinois Pension and Welfare Funds are aware that you may be having difficulty making required contributions to the Funds because of the current ongoing COVID-19 crisis. Therefore, they changed the requirements for contributions due in May and June of 2020.

You may elect to defer the payment due for either May OR June until a later date this year. If the month's required contributions are paid to the Fund by December 31, 2020, no interest or liquidated damages will result. However, if you fail to make up the month's contributions by December 31, 2020, the Fund will re-institute the waived interest and liquidated damages.

If you wish to defer the contribution due in May or June, please indicate so when you report your monthly contributions. Please contact the Fund Office if you have any questions.

Sincerely,

Board of Trustees
